TECH LEAD · FULL STACK DEVELOPER · ANGULAR & NODE.JS

PROFILE

Systems Engineer and Full Stack Developer with hands-on experience leading development teams and delivering scalable web solutions. Specialized in Angular, Node.js, and PostgreSQL with a strong focus on process automation, API integrations, and Linux server management. Proven track record of transforming manual workflows into efficient automated systems — reducing days of work to minutes. Actively seeking remote international opportunities where technology drives real business impact.

EXPERIENCE

Lead Developer & Full Stack Developer

Dec 2024 – May 2026

ANDRÉS PUBLICIDAD

Led a cross-functional team of **3 developers** under Scrum, managing **5 projects** (4 internal systems + 1 external client)

Built an employee scheduling automation system — reduced a **3-day process (3 staff) to under 10 minutes (1 person): 99%+ time reduction**

Engineered a **Google Ads API integration** with automated data analysis and predictive optimization engine; deployed company-wide to **250+ employees** via web app and Android APK

Eliminated full-day manual reporting tasks through automation, enabling media buyers to optimize campaigns more efficiently and reduce ad spend waste

Designed and developed corporate websites, e-commerce platforms, and internal systems with Angular and Node.js under scalable architecture principles

Administered Linux servers, optimized PostgreSQL databases, and managed collaborative Git workflows

🚩 **Flagship project:** Google Ads analytics platform adopted by 250+ users — eliminated full-day manual tasks and delivered measurable improvements in ad campaign ROI

Software Development Intern

Feb 2024 – Jul 2024

CAJA DE COMPENSACIÓN CONFA

Contributed to modernization and maintenance of internal applications built with Java and JavaScript

Implemented UX improvements and performance optimizations across existing systems

Participated in agile cycles: testing, debugging, and functional enhancements

Mobile Development Intern

Aug 2023 – Dec 2023

FUNDACIÓN OBRAS SOCIALES BETANIA

Developed mobile applications focused on automating internal business processes

Supported digital transformation and technology management initiatives
